

HAUNTED HOUSE IN A BOX

A PRODUCT OF ANIMATED LIGHTING, INC.

PRO

Lights,
motion, audio
and special effects!

Our Haunted House In A Box PRO version has all the features of the original Haunted House In A Box with even more enhancements:

Programmability: Program your own effects using our Animation Director software (sold separately). With Animation Director you can program lighting and sound effects, music (including synchronizing the lighting channels to music) and special effects with servos, digital inputs and outputs, DMX devices, etc.

Expansion Capability: Haunted House In A Box Pro comes with 16 lighting channels (30 amps maximum capacity) but can be expanded to over 4000 using our 16 channel expansion controllers.

Use a Wide Variety of Controllers: Add additional modules including Animated Lighting's servo controllers, digital I/O, DMX converter, etc. You can even plug the audio into our FM transmitter.

It's More than Just Halloween: Use Haunted House In A Box PRO for other seasonal events including Christmas, 4th of July and even beach parties by using our optional music memory cards.
